

## WAVEDRALL TYPE WD

The ceiling air diffuser WAVEDRALL is not only highly inductive, but also interesting from the energy standpoint. It can be installed in almost any room with a height of 2.4 to 4.4 m, for which a technical impeccable solution and perfect, aesthetic integration are considered important.

The air diffusers can be fitted harmoniously in mineral fibre and/or metal plate ceilings.

The WAVEDRALL can also be used for visual realisation, i.e. freely suspending.
