DEAR BUSINESS PARTNERS

For many years, we have made it our mission to give people access to clean and healthy air indoors. In the current times, this is more important than ever.

The global steel industry has experienced a boom in recent months. The supply situation on the raw materials market remains tense and an end to the price spiral is unfortunately not in sight.

Due to the price development of the raw materials we use, we too have to increase our prices by 5% as of 1st January 2022. Orders received by 17.12.2021 will be delivered with our current conditions. Any orders received after 17.12.2021, the adjusted prices will apply. Please take the new prices into account for your offers.

You can continue to rely on us to do our utmost to support you, even in these challenging times.

We look forward to continue working with you to ensure good climate in the future and thank you for your many years of cooperative partnership.

Kind regards

TROX HESCO Schweiz AG
